

## TAKING CARE OF OUR HEROES

We owe a great debt of gratitude to those who fight to preserve our freedom. Whether it be ensuring they have the tools to stay safe in battle, access to high quality healthcare, or education and employment opportunities here at home, our men and women in uniform deserve our gratitude and our support.

Most importantly, our veterans deserve to have their physical and mental health cared for when they return home from serving. The VA has been falling short in their duty to veterans and needs to be restored to the pinnacle of care for our heroes.

David is grateful for the sacrifice of so many and will represent them and their families in Washington. As a country, it is our duty to respect the memory of those lost and honor those who have fought for our freedom.
